

LifeStraw®

Australia

LifeStraw is an Award Winning personal water filter

Now Available in Australia

Why Use LifeStraw?

- **Camping:** Drink safely from running fresh water creeks; just use the LifeStraw
- **Emergency Use:** Safe to use in times of flood, cyclone, or when usual water sources are compromised or inoperable
- **Travel:** Drink the local water safely using LifeStraw
- **Working Outdoors:** Drink well or dam water using LifeStraw
- **Personal Preparedness:** Keep a LifeStraw in the home or in the car as part of your disaster preparedness kit

Every LifeStraw you buy gives a LifeStraw to those in need

LifeStraw®

Australia

LifeStraw – a personal water filter that makes dirty water safe to drink

More About LifeStraw

- Filters viruses, bacteria and dirt from fresh water
- Filters 1000 litres – that is 1.5 years for an adult using LifeStraw to drink 2L per day
- Supplies almost 3 years for a child drinking 1L per day
- Keep in your backpack, camping equipment, or glove box
- To use — simply suck through the tube
- Maintenance — simply blow back through the LifeStraw to wash out

Did You Know?

- Over 1 Billion people do not have clean water to drink
- 6000 – mostly Children, die each day as a result of water borne diseases
- Half of the world's poor suffer from water borne diseases from drinking water
- Those sick with water borne diseases fill half of the world's hospital beds
